Read the following instructions carefully

- This coursework forms 15% of your overall course grade.

- Download and unzip file **IntroToML_Coursework_One.zip** from the Blackboard

- There are three notebooks, one for each question with the instructions.

- There is also a data folder with all the data you will need.

- Use headings to divide up the sections and write clear explanations explaining your decisions and results (do not be too verbose). Make sure that all graphs are clearly labelled. You will lose points if your presentation is poor.

- The penalty for copying is to get zero.
